Groups are encouraged to seek their own solutions to the challenges they face, but sometimes a Group encounters a problem that is beyond any of its members experience. When this occurs, GSRs can share their concern with the GTASC in this report, facilitating discussion and hopefully providing some wisdom and experience to bring back to the group. This report is also a forum to let other groups and the Area know what has been happening at your Group. How many newcomers? How are you carrying the message? Are you getting good support? Have you tried a new meeting format? What's New? How can we help or serve you better?
